Hint: select a row to display details of a record

Further investigation revealed that this is due to most of the videos from ‘whatsmitafound’ not having any voiceovers. Additionally some videos had songs with lyrics playing in the background which the model transcribed.

Corrective action taken: UPDATE THE GPT4VISION workflow and get context information from the images in the video. (video -> frames -> image -> text). See <https://github.com/ousepachn/ShopAssist/blob/main/umer/instagram.py>
